Career Objective

Results-driven Java Full Stack Developer with hands-on experience in Java, Spring Boot, and React.js. Skilled in designing scalable web applications, developing RESTful APIs, and implementing secure authentication using JWT. Strong foundation in SDLC, data structures, and problem-solving, with a focus on building efficient and user-centric applications.

Education

SRM Institute Of Science And Technology

Sep 2020 – May 2024

Bachelor of Technology (Civil Engineering) , CGPA 8.45.

Swami Vivekananda Matriculation Higher Secondary School

Jun 2019 – April 2020

HSLC, Percentage 71%

Swami Vivekananda Matriculation Higher Secondary School

Jun 2017 – April 2018

SSLC, Percentage 95%.

Skills

- ✓ **Frontend:** React.js, Redux Toolkit, Redux-Saga, React Native (Expo), HTML5, CSS3, JavaScript ES6+, SCSS
- ✓ **.Authentication:** JWT Authentication, Axios Interceptors, Protected Routes, Access & Refresh Token Flow,
- ✓ **Tools & Platforms:** Git (Version Control Tools), GitHub, Maven, Postman, VS Code, Figma.
- ✓ **Backend Development:** Java, Spring Boot, RESTful APIs, JDBC, Microservices (Basic).
- ✓ **Database:** MySQL.
- ✓ **Core Concepts :** Object Oriented Programming (OOP), Data Structures, Exception Handling, API Development, SDLC.
- Soft skills :** Communication , Problem Solving, Analytical Thinking, Team Collaboration.

Experience

Annular Technologies

Mar 2025 – Jul 2025

ReactJs Developer Intern

- Developed and implemented **secure authentication systems** using JWT, refresh tokens, and Axios interceptors, improving session management and application security.
- Managed complex asynchronous workflows using **Redux-Saga**, ensuring scalable and maintainable state management. Built reusable and modular UI components using **React.js and Redux Toolkit**, enhancing performance and code maintainability.
- Integrated REST APIs and optimized data flow between frontend and backend systems

Projects

Title : Leegifts-Clone Website

Sept 2024 – Nov 2024

Link : <https://sujithsgit.github.io/leegifts-ecommerce>

Technology and Tools used : Html, Css, Bootstrap, Javascript, React.js, Redux Toolkit, Postman.

- Developed a responsive e-commerce platform using React.js and Redux Toolkit. Implemented JWT-based authentication and protected routes for secure user access.
- Designed cart functionality with local storage persistence for improved user experience. Integrated APIs for product listing and user authentication.

Habit Tracker Application using Spring Boot and ReactJs.

Nov 2025 – Jan 2026

Link : <https://ds-tracker-frontend.vercel.app/>

Developed a full-stack habit tracking system to create and monitor daily resolutions. Implemented backend using Spring Boot with Controller → Service → Repository (DAO) architecture and RESTful APIs. Built React.js frontend with Redux Toolkit and Redux-Saga for efficient state management. Designed MySQL database with User, Resolution, and ResolutionLog tables for daily tracking and streak calculation. Integrated JWT-based authentication, reminders, and progress tracking features.

Certifications and Achievements

Full Stack Development (Java & Reactjs) - Besant Technologies
